Subject: Microsoft Settlement

Dear Department of Justice:

I am told that our voice counts in determining whether settlement will be reached during the review period of the Tunney Act, ending January 28, 2002.

I think it is now in the best interest of the company (Microsoft), their shareholders, and the tax payers money to settle this antitrust suit once and for all. After all this time, why can (9) states not accept the terms of the settlement, and continue to squeeze Microsoft for more retribution for something they have already paid dearly for. Please consider my opinion, and please, let this long drawn out case be settled.

Jeannette Raypholtz
